

SAMEER REGE

Experienced QA Consultant with 4+ years in driving end-to-end testing across Web, Mobile and API layers. Strong expertise in SDLC/STLC Agile processes, and quality delivery in dynamic environments.

91-9589186345 hire.sameer.qa@gmail.com  <https://www.linkedin.com/in/sameer-rege/>

Professional Experience & Projects:

QA Consultant - Feb 2025 – May 2025 - Inadev India Pvt Ltd.

Project Description - As an Automation and Manual Tester on a project for Mass League Community Health Centers (MLCHC). The goal was to replace their inefficient Excel-based manual management system with a comprehensive, automated loan repayment software solution.

Freelancer Software Consultant - Mar 2024 – Jan 2025.

Project Description - Key QA contributor for the **Quire** project, testing e-commerce feature integrations and functional workflows. Performed API validations using Postman and verified API responses across web and mobile modules using Chrome DevTools.

Senior QA Engineer - Mar 2023 -Oct 2023 – Zyoin Web Technology Pvt Ltd.

Project Description - Worked as an Automation and Manual Tester with API testing using Postman on a project that involved integrating the legacy Symworld Automotive Logistics System with the modern Symbiz CRM platform. The objective was to streamline and modernize vehicle inventory management, supply chain logistics, and asset tracking across multiple manufacturing plants and dealerships.

Automation Test Engineer - Dec 2021 – May 2022- Razorpay - TestYantra Software Solutions Pvt Ltd.

Project Description - Analyzed business requirements for **Razorpay's** product suite and payment methods (Card & Payment Gateway) and actively involved in KT sessions client interactions, presentations and provided design suggestions for requirement gathering & validation.

Software QA Engineer - Apr 2020 – Sep 2021 - Bitlogic Consulting Group.

Project Description - Tested an E-commerce (Web + Mobile Application) with Admin and Consumer dashboards, focusing on authentication flows & role-based access control across different permission levels.

Computers & IT Faculty - Nov 2019 – Mar 2020- Stylus Public Siksha Org.

Project Description - Focused is on ensuring the reliability and functionality of digital learning platforms, assessment tools, and SIS and involved end to end testing of the SIS, TMS system.

Internal Volunteer Project – Yatri App (Performed E2E Manual Testing on Android & iOS) – TestYantra – (Duration – 6 Months):

This contribution helped in sharpening my mobile QA skills, understanding real-world product release cycles, and building a deeper understanding of user experience.

Key Accomplishments:
